# AWARDED TESTED PATENTED!

Automatic Guillotine Window - VertiFlex  
has won 4 international awards!

**iF Design** and **Red Dot** from Germany,  
**Good Design** from the US,  
and **Golden Plumb!**

Albert Genau systems are tested and certificated depending on European Standards, in the following organizations: Istituto Giordano from Italy and PfB from Germany!

## **VertiFlex All-Clean**

The VertiFlex All-Clean facade system features glazing made from sustainable materials, and which can be adapted to the proportions of modern architecture.

## **VertiFlex Mono / Twin**

Whether you would like to use heat insulated glass or not, Vertiflex Mono/Twin meets your demands. The system can be used as a moving handrail system in hotel glazing, café glazing, restaurant glazing, balcony glazing, stadium glazing etc.

## **VertiFlex Up**

VertiFlex Up is an Automatic & Stacking-On-Top Guillotine Glazing System. This system was created for free passing under the system. The system can be used as a moving handrail system in HoReCa, stadium, showroom, garage glazing, etc.

## **VertiFlex All-Glass**

VertiFlex All-Glass is an Automatic & Frameless Guillotine Glazing System. This guillotine system has been developed the full panoramic view as its designed with no frames.
